Subject Index to Volume 5

A

Abstracts, presented at 1969 Pavlovian Society of North Society 185
AC shock generator 126
Anesthesia, effects on cardiac orienting reflex 6
Atrioventricular block, heart rate and 75
Automatic recorder manipulator 62

B

Behavior, mechanisms of (Symposium) 171
Biological differentiation, implication for models of nervous control 119
Book review, Abraham Lincoln's Philosophy of Common Sense: An Analytical Biography of a Great Mind 250
Brain, as effector organ for study of conditional reflexes 153

C

Cardiac orienting reflex, effects of phenobarbital and neurohumoral agents 6
Cardiorespiratory function, smoke reflex 223
Cardiovascular conditional response, in rhesus monkey .. 36
Circulatory changes, accompanying hind leg flexion ... 197
Conditioning (classical), essential events in acquisition of 151

G

Ganglion, effect on viscerovisceral and viscerocerebral reactions 97

H

Heart rate, atrioventricular block and 75
Hind leg flexion 197
Humility (Editorial) 195

M

Mediating mechanism ...140, 165
Microcirculation in rats, conditioning of 90

N

Nervous activity, psychopathological data and 207
Nervous control, models of .. 119

O

Orienting reflex, overextinction 27

P

Parapsychology, a brief look at (Editorial) 1
Pavlov, physiologic psychology and 241
Pavlovian principles and social issues 180
Pavlovian Society of North America, 1970 meeting 35
Physiologic psychology, Pavlov and 241

Psychopathological data, higher nervous activity and 207
Psychopharmacology and conditional reflexes 109

R

Reinforcement control device, in self-organizing systems .. 52

S

Self-organizing systems, reinforcement control device in 52
Skinner, B. F. (Editorial) ... 63
Smoke reflex, autonomic control of cardiorespiratory function 233
Stimulus – Ghost – Response (Editorial) 133

V

Viscerovisceral and viscerocerebral reactions, effect of ganglionic blocking agent on 97
